Part 2 - navigation and interface widgets

Our second set of images considers navigation, interface widgets and options, and general structuring of organised data. In essence, we're considering examples relative to mobile UI libraries and design.

For this week's class discussion on Slack [#discussion-part2](#),

- review each image, and its title
- then comment on
 - general navigation options and styles
 - widgets used to suggest navigation options
 - other types of widgets used in these example apps
 - general interface design and structure
